

Dear Right-of-Way (ROW) Permit Applicant,

In order for us to efficiently issue to you a ROW Permit, please note the following:

On the application, every single line (1-9) must be filled out completely. This includes full names and addresses of both the contractors and property owners, and the exact areas to be worked in with accurate measurements. Measurements must be indicated in 'feet', not in inches, as indicated on the application.

As well as an address and phone number, you must provide us with either a fax number or an email address for us to contact you regarding any issues with this application.

You must provide **full details of all work** that is going to be done; a Right of Way Application Sketch is attached to the application to make this easier for you.

**\*If any of the above are not followed, the application will be returned to you via fax or email (if you did not provide us with this, you will have to go back to City Hall in person to fill out the application properly). You must complete the missing information and return it to us via email ([engineering@cityofrahway.com](mailto:engineering@cityofrahway.com)) or by fax (732-680-1375). We will then review it, and if all relevant information has been provided, we will approve the application and issue the permit.**

Please also note: We require at least 72 business hours' notice for all inspections.

Please sign below as an acknowledgement that you understand and agree to these terms:
